acrease in Weight Ten Pounds or More. "Td certainly give most anything to be able to fat up a few pounds and stay that way," declares every excessively thin man or weman. Such a result is not impossible, despite past failures. Most thin people are visibilities. Most thin people are visibilities of mal-nutritien, a condition which prevents the fatty elements of food from being taken up by the blood as they are, when the powers of nutrition are normal. Instead of getting into the blood, much of the fat and flesh producing elements stay in the intestines until they pass from the body as waste.

It is now thought certain that the company will return here Saturday. The men feel that this will be the case, and that if they are to be sent to the border it will not be until some time after their return to Danielson.

If Wednesday is a clear day, the men will have target practice with the big Suns. In case Wednesday proves cloudy, this big event of the annual stay in camp will be deferred until Thursday. The men are in good spirits notwithstanding the poor weather that has prevailed much of the time since they have been tenting. Many Danielson visitors were at the camp Sunday, which was spoiled as

To correct this condition and to produce a healthy, normal, amount of fat, the nutritive processes must be arrificially supplied with the power which nature has denied them. This can probably best be accomplished by esting a Sargol tablet with every meal. Sargol is a careful combination of six splendid assimilative agents. Taken with meals they mix with the food to turn the sugars and statemes, of what you have saten into rich, ripe neurisament for the tissues and blood and its rapid effect has been in many cases reported

Glenwoods are Brim Full of Good Things

The Glenwood Balanced Baking Damper is far ahead of any other-it is as positive as the turning of a railroad switch—open to start the fire, closed to bake— just this one damper for kindling or baking and best of all, it can't warp or stick.

The Glenwood Revolving Coal Grate is easy to shake at all times, and simply fine for removing clinkers. It is triangular in shape, with three different sides

The Ash Pan rests on a roller bearing frame-just open door and it rolls out at the slightest touch, neat and clean.

The Glenwood Shelf Under Oven Door is not stationary—it automatically raises and lowers as oven door is opened or closed. It is always level with oven bottom-a great convenience when basting meats or removing food.

The Glenwood Sectional Top is interchangeable—cross pieces can not warp—a wash boiler can be placed at the back as well as in front for quick heating, leaving the front holes free for cooking.

Glenwood Iron is smooth and perfect—the easiest of any to clean—a real delight to the most exacting housekeeper. Get one and you'll be glad ever after.

Changes in Trolley Stations.

Changes were made Monday by the Shore Line Electric Railway company in stopping points for cars in some sections of Main street. The Center street stop has been eliminated and a new "white gole" marked at Deacon's store, a new stop. The Spring, Reynolds and Main street stop has alsobeen done away with, the cars now stopping one pole south of the intersection of streets, and nearer the library. Another change to be made is stopping the cars in Main street at Danielson center about opposite Craig's store.

ARRESTED FOR SHOOTING nonymous Italian Held at Police Station.

In a cell at the police station during Monday an Italian, who persistently refused to give his name to the officers, was held to answer to a charge of breach of the peace. He was not called upon to face the charge during the day because of the fact that both of the prosecuting officers, Attorneys E. H. Johnson and E. C. Morse were out of the city.

The prisoner's arrest followed a complaint received just before midnight Sunday that shooting was going on at the home of Adoiph Leciair. It was represented to Officer of Origian Touchette that three men were trying to get into the Lechair house and that the men who were making the attempt were doing some revolver shooting.

Officer Touchette summoned Captain Ryan and men to the number of about 20 and they started out to capture the men who were doing the shooting.
